

Summary of T5-Tarbela-Movements-till-13-06-24

Summary of T5-Tarbela Movements (30% Reduction)

Overview

This document from **T5-Tarbela-Movements-till-13-06-24.pdf** tracks the movement of foreigners (primarily Chinese nationals) by road between Tarbela and Islamabad following the Bisham incidents. The data covers the period from April 8, 2024, to June 11, 2024.

Key Data Points

Movement Statistics (Selected Period)

- *Total Departures from Tarbela to Islamabad**: 130 Chinese, 27 others
- *Total Arrivals from Islamabad to Tarbela**: 128 Chinese, 20 others
- *Monitoring Period**: April 8 - June 11, 2024 (30 entries)

Significant Movement Patterns

- *Peak Departure Day**: June 11, 2024 (8 Chinese)
- *Peak Arrival Day**: June 11, 2024 (12 others)
- *Chinese Personnel**: Represent the vast majority of movements tracked
- *Other Nationalities**: Smaller but consistent presence throughout the period

Notable Observations

- Document appears to be a security or logistics tracking report
- Focus on foreign national movements post-incident
- Chinese nationals constitute approximately 82% of all tracked movements
- Regular bi-directional traffic between Tarbela and Islamabad

Data Collection

- Daily tracking of road movements
- Categorization by nationality (Chinese/Other)
- Direction-specific recording (Departures/Arrivals)

Note: This summary represents approximately 30% of the original document's content, focusing on the most significant data patterns and overview information.
